

## **POLICY OPTIONS WORKSHEET – JUNE 12, 2007**

### **Policy Options**

AF – Agriculture/Forestry

TL – Transportation/Land Use

ES – Energy Supply

RCI - Residential/Commercial/Industrial

CC – Cross-Cutting

### **Assessment**

BIN A: "**No-Brainers**" - Benefit appears to be high; it can be readily implemented; changes to existing laws and regulations are minimal or will be readily supported; the cost is modest or reasonable; and there is little or no harm associated with it.

BIN B: "**Worth Consideration**" - Most of the Bin A conditions can be met and the rest can be met with some effort. It is the opinion of the group that the effort required could be worth the benefit gained.

BIN C: "**Difficult**" - While the idea may have merit, the cost and/or effort required to make it work may not be worth the benefit realized; there is a likely probability of significant harm or "unintended consequences" to the economy other than cost to implement.

BIN D: "**Need more information**" - The option is too general/vague or not enough analytical information can be obtained to evaluate in the time allowed.

### **My Opinion**

Either "Agree" or "Move to Bin \_\_\_\_" and why.
